

# NECKARSCAPE\_A Place Away and Inside the City

Bridget Ama Quansah\_\_Cláudia Pando\_\_Megi Bubi\_\_Polina Gadzhieva

## BEFORE

EXISTENT

NECKARSCAPE is an innovative project that will foster sustainability and development.

It deems to bring an intergenerational experience amongst all ages and encourages education through several means. It is a place for adventure and connection with people, nature, and most importantly yourself.

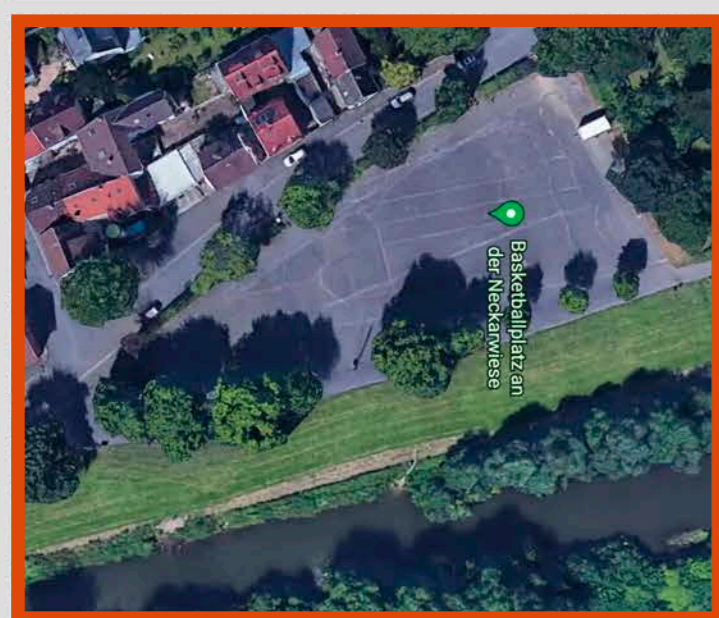

## ~~Breaking the line~~

DEVELOPMENT is a factor that promotes innovation and sustainability and in our project, we use the significant elements; water and plants to create some experiential spaces.

We merge the beach with the green area by creating paths to get the river flow through fountains, taps, filtration, and irrigation systems in the public space.
